Check Smart

by CPS | checkprintingsolutions

Why Choose Check Smart?

- ▶ Error-free check orders from day one
- ▶ On-the-spot customer service
- ▶ Emergency replacements in seconds

Increase security and customer satisfaction with Check Smart from CPS. Check Smart provides you a complete solution to your institution's starter check needs. Check Smart allows you to provide fully personalized MICR documents on demand. This lets your customers access fully personalized checks when they open their account. This technology enhances your customers' overall experience.

Some benefits of Check Smart also include:

Lower risk of fraud

Enhanced security from the moment your customer opens their new account. The starter kit is personalized with their information and your institution's logo, which substantially decreases the chances of fraud compared to a traditional starter kit.

Reduce operating expenses

With print-on-demand, you are reducing inventory and audit control expenses. Check Smart is efficient, saving you around 50% of the cost of traditional starter checks.

Deeper account holder satisfaction

Your customers walk out of your institution being able to access their account immediately. No waiting for debit cards and no hassles of traditional starter checks.

Reduce attrition and increase loyalty

Checks printed on demand satisfy customers' immediate needs, building loyalty, and seeing you as a solution to their problem, thus dramatically increasing customer satisfaction.
